

NEWSFLASH – PROTESTS

We are sure you have been inundated with media relating to the Mass Action and Protests across South Africa.

Unfortunately, we have been unable to deliver a large amount of your Shipments as we have recalled the vast majority of our couriers across the country in order to ensure their safety.

Regrettably this will impact on Service delivery for a large proportion of your deliveries.

While these circumstances are beyond our control, we are continually monitoring the situation to ensure that any opportunity that arises to expedite deliveries safely will be utilized.

We are also evaluating alternatives as part of our business continuity plans.

Should there be a special or critically urgent need to have deliveries attended to, please contact RAM Customer Service or your Key Account Manager to make any special arrangements and we will do our best to accommodate.

We trust that this meets with your approval and understanding
